

David Weissbach - Senior Spotlight

My name is David Weissbach and I play tennis. I've played for all four years. Playing tennis for Carmel has meant being apart of the best and most competitive team in the state and being surrounded by some of the best players meaning we push each other to get better. I've grown as an individual by learning work ethic and putting the team above myself. One thing that makes Carmel so special is how we have an expectation of being the best and that we always have a target on our back no matter who we play, and it is special to be apart of a program that is held to such a high standard especially in tennis.
