

John Faas on David Weissbach

David Weissbach an extremely hard working young man. all four years there wasn't any sign of him not playing, not trying out. He truly embodies what it means to be a Greyhound, a great teammate, very coachable. He believes in our team and that is how we win, we stick together and play for one another.

A really good story about him, as a Frosh, trying out, he was very sick and really not feeling the best but with constant communication from him and his family we as a staff extended his tryout process and time. Finally that second week we got a good look at him, matches etc. He was very deserving to be on the roster. Personally, I was very happy that we gave him that full chance he earned his place. 4 seasons later he is still on this team and contributing in many ways leadership, hard work and a solid teammate.

If I could say one thing, Id tell athletes who are trying out, and as you know at Carmel HS it isn't easy making a team here, If this means something to you , don't quit, just keep working, keep playing, things will go your way.

They did for David, and I couldn't be more proud of him.
